D. Howard

WORKSHEET #8: Joshua 3

1. Write out Joshua 3:14-17 in Hebrew in such a way as to show the syntactical relationships among the clauses in these verses. Take note of the independent *waw*-consecutive clauses, and highlight them, while subordinating prepositional phrases and other “off-the-main-line” constructions. Use arrows to clarify syntactical relationships, if necessary.
2. What is the theme proposition (idea) of this paragraph? How does your syntactical diagram help you in identifying this?
